LEaT con 24

LEaT con, the networking convention for the live and entertainment industry, will once again open its doors at Hamburg Messe from October 22 to 24, 2024. The event has established itself as an important meeting place for event industry professionals and this year will focus in particular on interactive experiences where technology is not only presented but also brought to life.

LEaT con 24 offers its visitors the opportunity not only to view the latest technologies from afar, but also to get hands-on. In specially designed experience zones, hands-on training sessions and interactive setups, participants are actively involved in the action, which provides real added value for industry professionals.

LEaT con 24 hands-on highlights

- Tracking Area: On Thursday, October 24, 2024 only, visitors can not only see various tracking technologies that play a central role in event production, live broadcasts and interactive installations in the specially set up Tracking Area, but also try them out for themselves. The Tracking Area offers both newcomers and professionals the opportunity to deepen their knowledge of various solutions and discover new application possibilities.

- HDR Experience Zone: The HDR Experience Zone is a real highlight. High Dynamic Range (HDR) and Wide Color Gamut (WCG) offer enormous visual possibilities that go far beyond conventional image technologies. Here, participants will have the opportunity to experience the effects of HDR/WCG up close in a live setup and ask their questions to experts Matthias Wilkens and Johannes Grieb on site.
- Trainingsarea: The LEaT con 24 training area is a great opportunity for operators, event technicians and interested parties to deepen their knowledge of lighting technology. Here, participants can complete practical training courses on four relevant lighting consoles, including Avolites Titan, grandMA3, ETC Hog and ChamSys MagicQ.

Comprehensive program:

- With over 120 program points, from lectures and workshops to demos, LEaT con 24 offers a wide range of opportunities that leave nothing to be desired. The event focuses on practical knowledge and offers professionals an ideal platform for further training, learning about new technologies and exchanging ideas with like-minded people.
- Ticket information: Individual options for everyone
- LEaT con 24 offers its visitors flexible ticket options that are tailored precisely to their needs. Whether you just want to visit the event or take advantage of the full program - everyone will find the right ticket here.

The Basic Ticket gives participants access to the comprehensive basic offerings of LEaT con 24, including the exhibition area, the Main Stage, the Speakers Corner, the program of the Special Areas Studioszene and AVcon, the exclusive training area, the LEaT Specials & Experience areas, the demo rooms and numerous networking opportunities with exhibitors and industry colleagues. A drinks flat rate (without food) is also included in the price.

For all those who want to get more out of their visit, the Insights Ticket offers additional access to exclusive further education formats. These include limited workshops in small groups, deep dive sessions with experts and special guided tours of Hamburg's event highlights. With the Insights Ticket, visitors secure an intensive and personal learning experience that goes beyond regular event attendance.

For visitors who want to enjoy their event experience to the max and concentrate fully on their visit, there is the catering upgrade: for just €16 (excl. VAT) per day, a hot lunch is provided directly on site. A drinks flat rate is already included in all tickets.

Secure a ticket for LEaT con 24 now and experience three days full of innovation, networking and know-how at the Hamburg Messe.
