

Klevgrand adds Jazz-Kit to One-Shot

Introducing a new kit to the OneShot library of sounds. This kit is definitely more than "good enough for jazz". In fact, it is the best sounding jazz drums that Klevgrand has ever heard. Coming from Sweden, where bragging is almost seen as a deadly sin, it really means something when Klevgrand says that. They simply call it... (perfectly sampled drum roll) Jazz-Kit. Klevgrand have admittedly strong opinions on how a modern jazz kit should sound, how it should be played and how to record and make samples out of it. For example, a snare drum can (and should) be played in various ways, especially when it comes to jazz music. There are rim

shots, ordinary strokes, side stick, buzzes and rolls. Same goes for the ride – the sound changes with how the cymbal is hit, where it is hit and how hard it is hit. Klevgrand made sure all parts have plenty of velocity layers and round robins to make it highly dynamic and musical. All together, this makes up an extremely natural, acoustic sounding and very playable drum kit that's fun to play and sounds just right.

“We created this pack because there just weren't any sample collections out there with this sound ideal. With this pack we bring you a jazz kit that actually sounds like a proper modern jazz kit – have a listen to the music examples and hear for yourself...” - Johan Sundhage, co-founder and Lead Developer

BD, SD, HH, Tom, Floor Tom, Ride and Crash are separated into 19 different strokes with around 40 velocity layers per stroke. Over 700 samples in total are organized in 9 different presets.

Prices:

- macOS & Windows: \$39.99
- Introductory price: \$14.99 (valid until June 11, 2024)
